

MA 114: Calculus II Recitation

Sections 009 and 011

College of Arts & Sciences (A&S)

Department of Mathematics (MA)

Fall 2015

Instructor: Jared Antrobus

Email: jantrobus@uky.edu

Webpage: <http://jaredantrobus.com>

Office: Patterson Office Tower 722

Recitation Details: *Section 009:* TR, 8:00 am - 9:15 am, TPC 101

Section 011: TR, 12:30 pm - 1:45 pm, L 213

Office Hours: I will have my availability posted on <http://jaredantrobus.com>. Please take advantage of this time. If you are willing to put time and effort into your education, I am willing to as well! Remember that you also have a whole class full of other people to study with. Mathematics is best learned through collaboration. I encourage you to work honestly with each other. (But don't cheat!)

Expectations: I expect that you will maintain a positive attitude throughout the semester. This means being respectful toward others *and yourself*. In addition, I expect that you will come to class on time and prepared, take notes, ask questions, and engage in your own education. I do not mind the use of electronic devices, as long as you are using them for an educational purpose and are not distracting others. (Really though. Don't come to class just to browse Reddit. You can do that at home.)

Academic Integrity, Cheating, and Plagiarism: The University takes matters of academic integrity very seriously, and so do I. In addition to harming your learning process, by cheating you put me into an uncomfortable situation that I don't want to be in. I encourage working together, but keep it honest! See <http://www.uky.edu/Ombud/> for University policies on academic integrity.

Classroom Behavior, Decorum, and Civility: The university, college and department has a commitment to respect the dignity of all and to value differences among members of our academic community. There exists the role of discussion and debate in academic discovery and the right of all to respectfully disagree from time to time. Students clearly have the right to take reasoned exception and to voice opinions contrary to those offered by the instructor and/or other students. Equally, a faculty member has the right—and the responsibility—to ensure that all academic discourse occurs in a context characterized by respect and civility. Obviously, the accepted level of civility would not include attacks of a personal nature or statements denigrating another on the basis of race, sex, religion, sexual orientation, age, national/regional origin or other such irrelevant factors. Students who are not respectful, not civil, or disruptive in any way may be asked to leave the class.

MA 114 Grading: Grades will be calculated by way of a points system. Points are earned by doing homework assignments, participating in class, and taking quizzes and exams.

Exam 1	(September 22)	100pts
Exam 2	(October 20)	100pts
Exam 3	(November 17)	100pts
Final Exam	(December 15)	120pts
Recitation Worksheets	(daily)	20pts
Web Homework	(assigned regularly)	40pts
Quizzes	(weekly)	40pts

Additionally, 20 bonus points will be awarded to those who miss 3 three or fewer lectures.

MA 194 Grading: Make sure that you are enrolled in the correct section for 194, if you are signed up! If you have 2 or fewer unexcused absences in recitation, you will pass MA 194. Otherwise, you will fail. To be counted as present on any given day, you must be working on the assigned recitation worksheet or (if you have finished the worksheet) something else related to calculus.

Update Clause: I reserve the right to make changes to this syllabus if necessary.
